Packaging Solutions Provider

Packaging project brief

Bring the details you already know so the team can discuss a format, a sample or a project quote.

Product and use

- [ ] Describe the product, fill size, target shelf life and intended storage conditions.
- [ ] Record how the customer opens, dispenses or reseals the pack.
- [ ] Identify the filling method and any equipment constraints.

Pack and artwork

- [ ] List the current or preferred format, finished dimensions and required features.
- [ ] Share artwork status, finish preferences and any material or documentation requirements.
- [ ] If available, reference a current sample, drawing or previous specification.

Quantities and delivery

- [ ] List each size or design and its quantity separately.
- [ ] Include the destination, requested date and the decision you need to make next.
